2. Develop and maintain sound moral and ethical values with a sense of responsibility for the property, privacy, and individual rights of others.
3. Formulate and be motivated to persist in achieving attainable goals.
4. Learn about and assume responsibility for living in harmony with and improving the natural environment.
5. Learn the functions of society and contribute to the community in a constructive manner.
6. Learn about, develop and maintain a healthy body and mind.
7. Foster and promote the ideals of democratic citizenship through knowledge of political and governmental systems.
8. Develop and maintain a positive attitude toward vocational-oriented services.

Students must recognize and abide by the rules and policies of their respective buildings, Malta Public Schools, Federal, and State Law.

Mission Statement of the Malta High School Faculty and Staff

We, the staff of Malta High School, are committed to providing all students with a safe learning environment. Students will be offered a wide variety of challenging academic courses and activities. Behavior and social skills will be enhanced and refined, giving students the opportunity to pursue their potential and become life-long learners.

Student Rights

Equal Education and Employment: As provided in the Constitution of the State of Montana, the Malta School District is committed to equal opportunity for all students and staff. Discrimination because of sex, race, color, creed, religion, national origin, age, physical or mental handicap, political belief, marital or parental status is prohibited unless based upon reasonable grounds as provided by law. Inquiries or complaints regarding employment or educational discrimination should be directed to the Malta High School Principal.

For further information, please refer to the MPS Board Policy #3225

Due Process: Students of the Malta Public Schools shall not be deprived of their constitutionally-protected property right to attend school. Included in the right to attend school is the safeguard of due process which provides to students fair treatment during disciplinary action. See Malta School Board Policy #3300 for additional information regarding due process.

The following procedures of due process will be adhered to during discipline referrals:

1. Advise the student of the charges.
2. Advise the student of the facts on which the charges are based.
3. Provide the student with the opportunity to respond to the charges.
4. Provide the student with the opportunity to present their version of the incident.
5. The principal will provide a decision regarding disciplinary action in a timely manner.

Right to Privacy: All students' rights to privacy, as defined by state and federal laws, shall be respected. Malta High School will adhere to all student and family rights as defined by the Family Educational Rights and Privacy Act.

For further information, please refer to the Malta School Board Policy #3600F1.

Release of Personal Information: Throughout the academic school year the school district may release individual student information including: student's name, date of birth, address, telephone listing, e-mail address, photographs, dates of attendance, grade level, enrollment status, participation in officially recognized activities and sports, height and weight, honors and awards. Any parent, guardian or student may prohibit the release of any or all of the above information by delivering written objection to the Principal. Pursuant to federal law, the school district is required upon request to release the names, addresses, and telephone numbers of all high school students to military recruiters and institutions of higher education. Parents, guardians, or students may request that the school district not release this information, and the school district will comply with each individual request.

Review and Correction of Student Educational Records: Student educational records shall mean records, documents and other materials which contain information directly related to a student and are maintained by the school district or a person acting for the school district. Students have the right to review and request correction of these records.

School Searches and Seizures: School district administration may legally search school lockers, automobiles, and students using the following guidelines.

1. A search shall be conducted upon receipt of information that the search would produce evidence the student has violated the law or school policies.
2. An adult witness may be present when a personal search is conducted.
3. Trained detection canines may be used to search school property, including but not limited to: student lockers and vehicles parked in school parking areas.

Notification of Law Enforcement Interview: In addition to the rights provided by state and federal laws, if a student is questioned by law enforcement officers on school premises, the student has the right to request the school building principal or his designee to notify the student's parent or legal guardian.

The school shall attempt to notify the parent of law enforcement intent to interview or question a student.

Access To Public Service Agencies: Malta Public Schools shall work cooperatively with all public agencies (e.g., Department of Family Services), within the guidelines of state and federal law, to meet the needs of our students.

Married or Pregnant Students: A married or pregnant student has the right to attendance. Students have the right to attend classes and to participate in school activities without regard to marital or parental status or to pregnancy. A student who is pregnant must have doctor's consent to participate in athletic activities.

Appeal Procedure: A student, parent or legal guardian, who believes that a student's rights have been deprived or violated as defined in the student rights section of this student handbook, may file an appeal with the Superintendent of the Malta Public Schools.

Student Attendance

Everyday attendance for high school students is necessary if they are going to learn and teachers are going to teach them. Therefore, it is extremely important that school absences be kept to a minimum.

Excused Absence: The following reasons will be deemed excused absences:

1. Illness. After three consecutive absences a doctors' note may be required.
2. Medical appointments.
3. Family emergency.
4. School sponsored activities.
5. Senior college visit. One visit for two consecutive days.
6. Justifiable and parent approved.

Excessive Absences: Regular attendance on the part of the student is essential if the continuity of the learning process is to be maintained. The policy regarding excessive absenteeism per semester is as follows:

1. On a student's seventh (7th) and eleventh (11th) absence in a class during a semester, parents will be notified by letter of possible consequences.
2. On a student's eleventh (11th) absence in a class, the parents of the student may be required to meet with the principal and/or appear before the Malta Public Schools Board of Trustees to justify the number of absences.

Extenuating circumstances will be evaluated by the high school principal.

Steps to Follow When Absent: Please adhere to the following guidelines:

1. Parent/guardian before 8:15 a.m. on the day of a student's absence call the school and inform the office of the students' absence.
2. Upon returning to school the student's parent/guardian must write an excuse note or phone the high school office giving your name, dates of absence, reason for absence and parent signature. Present this note to the high school office on the day of your return.
3. When returning to classes following an absence, it is the responsibility of the student to request make-up assignments from the teacher. Assignments that are not made up will be reflected in the student's grade.
4. A student anticipating an absence from school for a non-school related purpose must secure in advance of their absence make-up assignments from their teachers. The student is encouraged to complete some or all of the assigned work before the absence.

Unexcused Absence: A student who is truant or fails to have an appropriate excuse for their absences will be considered to have an unexcused absence.

At the Principal's discretion, a minimum consequence for a student's truancy may include one hour of detention for each period of unexcused absence.

Tardiness: A student who is late to school or an individual class period is considered tardy. A student who is tardy 1st or 6th periods, must check into the high school office before going to class. For all other periods, students will report directly to class. Refer to the Detention Policy on page 8 for tardy consequences.

Make-up Work: Regardless of the type of absence, students are responsible for obtaining and completing make-up work. Students are required to turn in assigned makeup work on the second day following their return to school after an absence. Teacher discretion may extend the due date. (example: a student misses Monday and Tuesday, all makeup work is due on Thursday)

Student Activities Make-up Responsibilities (Blue Slips): Students missing school for the purpose of attending school activities must complete and turn-in a pre-absence form known as a "Blue Slip".

1. Students will pick up homework assignment slips (Blue Slips) from the office before attending an activity that requires that they miss class time.
2. Students are responsible for having their teachers sign the slips before the student can participate in the scheduled activity or contest.
3. Teachers are encouraged to require that assignments be completed before the Blue Slip is signed.
4. Blue Slips are due prior to the scheduled departure time. Students failing to complete their Blue Slips will not be allowed to travel to or participate in the scheduled activity or contest.
5. Coaches/Activity Sponsors are to collect Blue Slips, check that all Blue Slip procedures have been followed, and turn in Blue Slips to the Activity Director.

Quarterly "A Card": As a reward for consistent attendance, students qualify for an "A Card". The following criteria is used to determine qualifications:

1. Per quarter a student cannot have more than 4 absences and/or tardies.
2. No more than one absence or tardy per class period per quarter.

3. School sponsored activities absences do not count against "A Card" rewards.
4. The "A Card" cannot be used for quarter or semester tests.

4. Students caught cheating are not allowed extra credit to make up the grade.
5. The teacher and/or principal will notify parents of any/all cheating infractions.

MALTA HIGH SCHOOL ACTIVITIES HANDBOOK

Activity Director's Message

The primary goal of the activities program at Malta High School is to provide our students meaningful opportunities within a variety of activities including: music, speech, drama, clubs and athletics. The purpose of this student activities handbook is to present the students of Malta High School information regarding our extra-curricular activities.

Experience tells us that students who are involved in activities find high school to be a rewarding experience. By taking advantage of our activities program, a student will discover the thrill of being involved in activities that create lifelong memories. Participating in school activities is not an easy task. Dedication, discipline and commitment are personal life skills that are nurtured through involvement in activities.

We wish each student "good luck" as he/she participates in our activities program. Be gracious winners and dignified losers as we compete in the many areas of our activities program.

Remember, we are all ambassadors of Malta High School.

Malta High School Philosophy for Activity Participants

Malta High School (MHS) considers activities to be an integral component in the educational experience of our students. Establishing a desirable atmosphere for our activities program is a shared responsibility of students, coaches, and parents. To enhance this atmosphere, the following philosophies and guidelines must be utilized.

It is the responsibility of the student to:

1. Be a positive role model.
2. Value the importance of achieving the highest academic success possible.
3. Obey school rules and regulations.
4. Enjoy the opportunities and rewards of extra-curricular participation.
5. Follow the coaches' guidelines and expectations.
6. Realize that certain levels of some activities are competitive within our school, and that this will result in varying degrees of participation for each participant.
7. Model good sportsmanship both in language and behavior.
8. Communicate with your coach regarding any concerns, advice, or additional problems that arise regarding your activity.

It is the responsibility of the coach to:

1. Be a positive role model.
2. Encourage each student to achieve the highest academic success possible.
3. Enforce MHS and MHSA rules and regulations.
4. Provide a positive atmosphere during practice and competition.
5. Set and follow through with team guidelines and expectations.
6. Teach skills and techniques appropriate to the activity they are coaching.
7. Model good sportsmanship both in language and behavior.

8. Be open to communication with students and parents.

It is the responsibility of the parent to:

1. Be a positive role model.
2. Encourage their child to achieve the highest academic success possible.
3. Help enforce school rules and regulations.
4. Enjoy watching their child participate in extracurricular activities.
5. Follow the coaches' guidelines and expectations.
6. Realize that certain levels of some activities are competitive within our school, and that this will result in varying degrees of participation for each participant. The school district does not guarantee equal playing time for all participants.
7. Model good sportsmanship both in language and behavior.
8. Communicate with the coach regarding concerns or problems that may arise regarding their child's participation in an activity.
9. Realize that coaching philosophies vary and that the head coach's philosophy shall be the controlling philosophy.

Program Philosophy

Sub-Varsity Programs – Junior Varsity, C-Squad, and Froshmore: The Junior Varsity and C-Squad levels are intended for those students who display the potential for continued development into varsity level performers. Sub-varsity teams are primarily comprised of the underclassmen that their title suggest. Occasionally a young player will be moved up to a higher level depending on his or her individual skills and abilities and the varsity coaches' discretion. Squad sizes may vary dependent upon the program. Therefore, cuts may take place. While the philosophy of the school to promote broad participation, the reality is that some sports can only provide a quality, safe experience with squad size limitations.

The understanding that practice sessions are critical to individual as well as team success needs to be demonstrate. A specified amount of game playing time is never guaranteed. Playing time for each level is the following:

- **C-Squad:** all players will participate in each contest. Playing time may not be equal with some athletes contributing more than others.
- **Junior Varsity:** Striving to win every game is an important goal at this level. Playing time may not be equal with some athletes contributing more than others. It is rare occasion well all athletes do not get in at some point.

While practices and contest are rarely conducted on holidays, practices are sometimes scheduled during school vacations periods. With the goal of becoming a varsity athlete clearly in sight, a high level of commitment is expected at the sub-varsity level.

Varsity Program: Varsity level completion is the pinnacle of each sports program. Normally, a squad is comprised of junior and senior athletes. Occasionally a sophomore, and infrequently a freshman, may be included on the

team, provided evidence of advanced levels of physical development, athletic skill and appropriate socio-emotional development are demonstrated.

Squad size at the Varsity level maybe limited depending upon the sport. The number of participants on any given team is a function of the number needed to conduct effective and meaningful practices as well as to adequately meet the strategic requirements for successfully playing in athletic contests. It is important that each squad member recognize and accepts the role that they will serve on the team. The number of roster positions is relative to the student's acceptance of their individual roles in pursuit of the team goals. While contest participation over the course of a season is desirable, a specific amount of playing time at the varsity level is never guaranteed. It is important that both students and parents understand this aspect of varsity completion.

As a varsity athlete there must be a realization that Varsity athletics require a major time commitment. In most sports, a six-day per week regime maybe requires. This commitment is often extended into vacation periods for all sports seasons. Varsity athletes are expected to live up to this commitment even during vacation periods.

Gender Equity

Equity Policy Statement: The Malta Public School District affirms that no person shall, on the basis of gender, be excluded from, be denied the benefits of, or be subjected to discrimination under any education program or activity. True equity is based, not on the letter of the law but instead, on the spirit of the philosophy. The best way to think of equity is that all basketball players, whether male or female, deserve the same treatment. The fact that they are male or female should make no difference in the type of program we provide for them.

All coaching staff members in the MHS activities program are expected to be well acquainted with the expectations of the Montana High School Association (MHSA) and Title IX law.

The Malta Public School District is committed to adhering to the spirit as well as the letter of the law in regards to gender equity. The spirit of equity for gender in all areas is to be established and maintained in the following areas for equivalent programs in regard to:

- Number of activities
- Competition and practice schedules
- Practice facilities
- Game and contest facilities
- Uniform and equipment purchasing
- Hiring of coaches/advisors
- Coaches/advisors' pay
- Team support (boosters' clubs)
- Transportation
- Meal arrangements
- Motel accommodations

Equity Policy Statement (continued): In accordance with Malta Public School Board Policy #3225, any student who believes he or she has been discriminated against, denied a benefit, or excluded from any school program or activity on the basis of sex in violation of Title IX, may file a written complaint with the activities director and/or the high school principal.

Cheerleaders and Pep Band will perform at an equal number of boy and girl activities.

Halftime Performances will be equal throughout both boys and girls sport seasons.

Student Eligibility

Age Eligibility: Students who become nineteen (19) years of age on or before midnight, August 31, of a given year are not eligible to participate in MHSA sponsored activities. Therefore, a student becoming 19 years of age after midnight, August 31, of a given year, will be eligible to compete in all MHSA activities throughout that particular school year. This eligibility requirement is taken directly from the Montana High School Association Handbook.

Academic Eligibility: To be eligible to participate in MHSA or MHS activities Malta High School students must pass at least five (5) full-time classes and cannot fail an academic core class (all courses are considered academic core classes except the following: work study, student aides). To determine academic eligibility, individual student grades are checked at mid-term and at the end of each quarter or semester. ***Mid-term Checks:** Students ineligible at mid-term remain eligible and are placed on "academic watch" with five (5) pupil instruction (PI) days to regain eligibility. Failure to gain eligibility will cause the student to become ineligible until quarter grades are posted.

***First and Third Quarter Checks:** Students ineligible at the end of first or third quarters will be ineligible to participate for ten (10) PI days. After 10 PI days failure to regain eligibility will result in ineligibility until the next grading period.

***First and Second Semester Checks:** Ineligibility at a semester grading periods will result in ineligibility for 90 PI days. Eligibility is regained by meeting eligibility standards the next semester.

Academic Ineligibility: Students ineligible during mid-term or quarter grade checks may practice at the coach's discretion. They are not eligible to participate in any other team activities. Students ineligible following a semester grade check are not allowed to practice or take part in any team activities. They may start practice 10 practice days prior to the completion of their 90 day suspension.

Attendance Eligibility: No student shall be eligible to participate in a MHSA contest who has been in attendance in any secondary school more than eight (8) semesters. An attendance of twenty (20) days during a semester shall constitute one semester of attendance.

Hazing is defined as any humiliating or dangerous activity expected of a student to belong to a team regardless of their willingness to participate. This policy applies not only to students who directly engage in an act of hazing but also to students who, by their indirect behavior, condone or support another student's act of hazing.

Reporting Hazing: Any person who believes he or she has been the victim of hazing or any person with knowledge of conduct that may constitute hazing, shall report the alleged acts immediately to the appropriate school officials (coaches, activities director, or principal).

Substance Abuse Policy

It is the belief of the Malta Public Schools that students should be encouraged and supported in their efforts to develop and maintain chemical free life-styles. We recognize the use of mind-altering chemicals is a significant health problem for students, resulting in negative affect on behavior, learning, and the total development of each individual. Student's use and misuse of mind-altering chemicals affect academic growth and achievement, activities participation, and the development of related skills. The goal of the Substance Abuse Policy is to help the students of Malta High School overcome any problems resulting from their use or misuse of alcohol or other mind-altering chemicals including tobacco products.

A student may not:

1. Use, or have in possession illegal drugs of any kind during the school calendar year. Alcohol is considered a drug.
2. Use, or have in possession tobacco products in any form at any time during the school calendar year, including e-cigarettes and other tobacco innovations.
3. Be in association with others who are using and/or possessing any kind of drug, alcohol or tobacco product.

Monitoring Process:

1. Violations will be monitored throughout the school year. Violations are cumulative throughout the school year and potentially into the next school year.
2. School rules are in effect for all MHS students while on school property or at any MHS co-curricular function including out of town school activities.
3. This monitoring process pertains to all school activities including, but not limited to: FFA, FCCLA, BPA, Key Club, Student Council, and school plays. Punishment for infractions will be according to district guidelines and policy.

Violation Consequences:

1st Offense – 10 PI days suspension from school related activities.

2nd Offense – suspension from all school related activities for the remainder of the year or 45 PI days suspension from school related activities carried over into the following school year. (Whichever suspension is longest)

*Students who have violated the Substance Abuse Policy are not eligible for activity letter awards, team awards, and/or all-conference recognition for the season of their violation.

Clarification:

1. A pupil instruction day (PI Day) is a day when students are attending classes.
2. There is no distinction between the consequences for possession or association.
3. In the case of an offense in which the PI days run longer than the end of the school year, the suspension will carry over into the following school year. In such cases only, the practice days in August before student academic attendance will be counted as PI days.
4. Weekends, holidays, summer vacation, and any days in which student instruction is not taking place will not count as PI days except for the exception in clarification #2.
5. If a violation occurs after that suspension has been completed in the year which has seen a carryover of suspended days from the previous year that violation will be considered a 1st offense.
6. A first time violation of this policy, even if a student is not involved in extracurricular activities at the time, will still be considered a 1st offense in reference to a subsequent violation during which a student is involved in an extracurricular activity.
7. A 2nd time violation of this policy, even if a student is not involved in extracurricular activities at the time, will still be considered a 2nd offense in reference to a student participating in activities after this 2nd offense occurs.
8. The consequences of a non-negative drug test as defined in the board policy

will fall under the guidelines as outlined above under violation consequences.

Investigation Procedure: School administrators will follow appropriate due process while investigating alleged chemical abuse policy violations. Parents or guardians will be contacted throughout the investigation.
